Full Stack Developer with a background in direct sales, customer service, and zootechnical engineering. I have had a strong inclination towards technology from an early age, which has guided my educational path towards engineering and programming. I possess critical and logical thinking skills, active listening abilities, and a knack for problem-solving. I specialize in both Front-end and Back-end development, with knowledge of agile methodologies, GIT, data structures, algorithms, CSS frameworks, C/C++, Pascal, ASM, Java, Blockchain, and Solidity. My experience includes Full Stack development using React, Redux, Node.js, Express, Sequelize, and PostgreSQL. I excel in problem-solving, effective communication, and time management. English proficiency: B-2.

PROJECTS

Full Stack Web Developer – Rick & Morty App   July 2023 – August 2023
Academic Experience - Henry Bootcamp

Developed an application that aimed to display information from an external API in the form of cards. Users could search for and add Rick & Morty characters to their favorites section, as well as sort and filter them by various criteria.

- *Developed the front-end of the project*
- *Developed the back-end of the project*
- *Established database relationships*

Front: React, Redux
Back: Node.js, Express
Database: PostgreSQL y Sequelize.
https://github.com/pi-rym/PI-gunminiho

Full Stack Web Developer – Doggy Explorer Project   Sept 2023 - Sept 2023
Academic Experience - Henry Bootcamp

Created an application with the goal of displaying information from an external API in card format. Users could search for and add dogs to the database, as well as sort and filter them based on various factors.

- *Developed the front-end of the project*
- *Developed the back-end of the project*
- *Established database relationships*

Front: React, Redux
Back: Node.js, Express
Base de datos: PostgreSQL y Sequelize.

Full Stack Web Developer – Flexworks   Oct. 2023 - Oct. 2023
Experiencia académica. Henry Bootcamp

Application with the goal of establishing a job market for independent professionals who wish to offer their services to companies seeking candidates for their projects. The administrator's role is to act as an intermediary between the professional and the company, managing the ability to decide how, when, and in what manner to facilitate the relationship between both parties.

   •   *Develop relationships between Sequelize and PostgreSQL models.*
   •   *Create REST APIs for communication with the Front-End.*
   •   *Document the APIs for Front-End usage.*
   •   *Validate communication between Back-End and Front-End.*
       Integrate MercadoPago APIs to accept payments.

Back: Node.js, Express & Sequelize.
Data Base: PostgreSQL.

OTHER PROFESSIONAL EXPERIENCE

Authorized Distributor   apr. 2017 - dec. 2022.
MLM & Direct Sales - Royal Prestige
   •   Conducted direct sales and monitored new field sales representatives
   •   Led a team and built marketing networks

Animal Nutritionist   sept. 2012 - nov. 2017.
Animal Science - "Don Miguel" Pig Farm
   •   Designed the herd's feeding program
   •   Formulated and produced feed batches for various stages of the herd
   •   Evaluated feed performance against their compositions

TECHNICAL PROFICIENCY:

   ●   **Programming Languages:** Javascript, C/C++, Java
   ●   **Frameworks:** React, Redux, Express, Sequelize, Node.js
   ●   **Database:** PostgreSQL.
   ●   **Tools:** Git, Slack, Discord.
   ●   **Agile:** Scrum.

PROFESSIONAL EDUCATION:

   •   Full Stack Web Developer - Henry Bootcamp. 800 hours of theoretical and practical coursework. 2023.
   •   Bachelor of Animal Science. 2010 - 2016.

ADDITIONAL EDUCATION:

   ●   Blockchain & Solidity. Plazti 2022.
   ●   Fundamentals of HTML, CSS, and Javascript. SistemasUNI 2010.
   ●   Java Development. Sistemas UNI. 2011.
   ●   C/C++ & Delphi for Hacking & Memory management – Cheat Engine Symposium 2012

LANGUAGES:

   ●   Inglés B2 - Intermedio.
   ●   Spanish - Native
